#__ Name _____

Math Quiz #16 2/23

① Write a function for the scenario:
Mr P was given $23 and he received $50 per hour at his side job.

coefficient

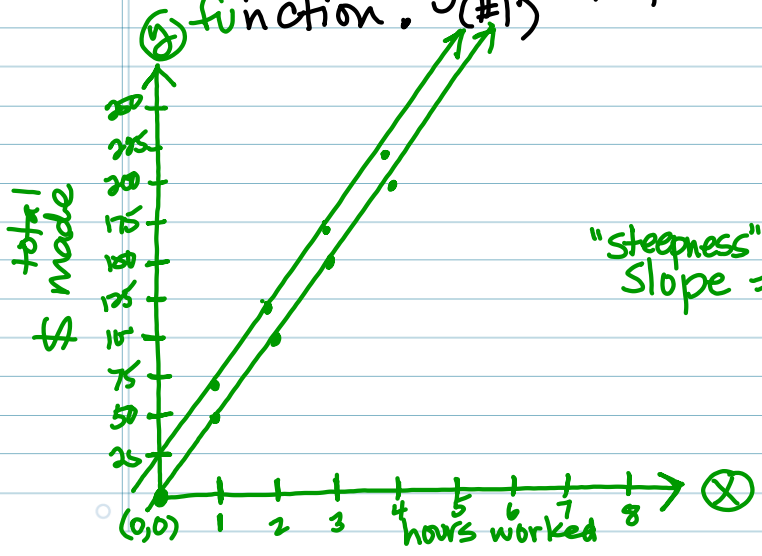
function: $y = 23 + 50x$

② What is his amount of money?. (#1)

x	y
0	23
1	73
2	123
3	173
4	223
5	273
10	523
20	1023

→ given $23 (Y intercept)

③ Graph (on graph paper the following function. (#1)



Q1

"steepness"
Slope = 50
